Crazy Zoo

Activity One - At the center : Strange stories with animals

This is the amazing (but true) story of Mike, a chicken who lived for 4 years AFTER his owner cut his head off back in the 1940's.

Before you read the story, try to guess the answers to these questions with your partner:

1) Is this really possible?
2) How is it possible?
3) What do you think Mike's owners did with this amazing chicken?
4) What would YOU do if it was your chicken?
5) In Mike's hometown, they have a special "Mike the Headless Chicken Day" every year. What kind of special events do you think they had?

Now let's visit Mike's website and read the story to check answers.
